

RAPID PIPE REPAIR KIT

For Quick & Easy Pipe Repair

- Repair pipe leaks and cracks in minutes
- Stop leaks – Remain in service – Minimize downtime
- Works above & below ground as well as underwater

FURS Rapid Pipe and Emergency Leak Repair kit was designed for quick in-field live leak repairs on all types of piping. Cast-like material repairs the leak and adds long-lasting mechanical strength to thinning walls and active leak areas.

**Fast curing with an easy application
will have you back up and running in minutes.**

- Repairs live and active leaks
- Apply to all types of pipes and hard to reach areas
(Straight pipe, elbows, tees and more)
- Water activated polyurethane • Easy to apply
- Hardens in minutes • Durable & cost effective
- No VOC's • Impact & abrasion resistant
- Strong chemical resistance • Long shelf-life

Multiple Sizes Available:
